

# Subject Index

## A

- Acyl-CoA oxidase
  - fatty, differential effects on expression of arachidonic and docosahexaenoic acids, 367
  - peroxisomal, induction by dietary fish oil, 351
- Acyl-CoA synthetase, human very long chain, 323
- Adenosine monophosphate (AMP): cyclic AMP response element mediation of dexamethasone induced suppression of prostaglandin H synthase-2 gene expression in human amnion derived WISH cells, 243
- Adipogenesis, prostacyclin as critical prostanoid, 383
- Adipsia, role of centrally-administered melatonin and inhibitors of COX and NOS, 249
- Alcohol *see* Ethanol
- Aldosterone, plasma, and obesity and insulin resistance, 401
- Alphafetoprotein
  - effect on alpha-linolenic acid conversion by fetal rat hepatocytes, 209
  - regulation of gene expression by fatty acids and fibrates, 357
- Angiogenesis, angiogenic factor- and tumour-induced, inhibition by gamma linolenic acid, 21
- Anthocyanin, antioxidant effect on lipid peroxidation, 1
- Antiarrhythmics, polyunsaturated fatty acids as, 307
- Antioxidants, anthocyanin as, 1
- Arachidonic acid (AA)
  - effects on expression of fatty acyl-CoA oxidase, protein kinase C and lipid peroxidation in HepG2 cells, 367
  - mobilization of calcium stores and c-jun gene expression, 187
  - role of peroxisomal oxidation in conversion to eicosatrienoic acid in skin fibroblasts, 377
- Arachidonic acid-induced mouse ear inflammation test (AA-METT), combination effects of leukotriene synthesis inhibitor BAY X 1005 and dexamethasone on edema, 5
- Atherosclerotic vascular tissue, 6-oxo-PGF<sub>1α</sub> and 8-epi-PGF<sub>2α</sub> in, 129

## B

- BAY X 1005 combined with dexamethasone, effects on edema formation in arachidonic acid-induced mouse ear inflammation test, 5
- Bipolar disorder
  - omega-3 fatty acids and, 329
  - relationships to impaired fatty acid and phospholipid metabolism and to diabetes, cardiovascular disease, immunological abnormalities, cancer, ageing and osteoporosis, 217
- Brain, polyunsaturated fatty acids, functional and electrophysiological effects on excitable tissues, 307

## C

- C-jun gene, arachidonic acid-induced activation, role of calcium, 187
- Calcium, role in arachidonic-induced c-jun activation, 187
- Cardiovascular risk factors, non-esterified fatty acids and, 411
- Cyclooxygenases
  - cyclic AMP response element and cyclooxygenase-2 gene expression, 243

- meconium-stimulated cyclooxygenase-2 expression in rat lungs, 107
- role of cyclooxygenase-1 and 2 in gallbladder prostanoid formation, 77

## D

- daf-genes, role in insulin resistance and non-insulin dependent diabetes mellitus, 13
- Daphnodorin A, effects on angiotensin II-induced vascular contraction in hamster, 135
- Depression, relationships to impaired fatty acid and phospholipid metabolism and to diabetes, cardiovascular disease, immunological abnormalities, cancer, ageing and osteoporosis, 217
- Dexamethasone combined with leukotriene synthesis inhibitor BAY X 1005, effects on edema formation in arachidonic acid-induced mouse ear inflammation test, 5
- Diabetes mellitus
  - non-insulin dependent, role of GLUT-4, tumor necrosis factor, essential fatty acids and daf-genes, 13
  - time-course of alterations in prostanoid production and contractile responses in streptozotocin diabetic rats, 269
- Diet
  - effect of oils containing different amounts of precursor and derivative fatty acids on prostaglandin E<sub>2</sub> synthesis in liver, kidney and lung of rats, 49
  - fish oils, coordinate induction of peroxisomal acyl-CoA oxidase and UCP-3: mechanism for decreased body fat deposition, 351
  - omega-3 fatty acids, 421
  - polyunsaturated fatty acids, effects on hepatic gene transcription, 345
- Dipyridamole, effect on prostanoid production in rat isolated atria, 125
- Docosahexaenoic acid, effects on expression of fatty acyl-CoA oxidase, protein kinase C and lipid peroxidation in HepG2 cells, 367

## E

- Edema formation in arachidonic acid-induced mouse ear inflammation test, combination effects of leukotriene synthesis inhibitor BAY X 1005 and dexamethasone, 5
- Enalapril, effect on renal function and urinary prostanoid excretions in salt-depleted women, 87
- Endothelial cells
  - differential effects of long chain n-3 fatty acids on expression of PGH synthase isoforms in bovine aortic cells, 363
  - serotonin-induced proliferation, blocking by omega-3 fatty acids, 115
- Endothelin-induced prostacyclin production, mediation by protein kinase C, 263
- Endotoxemia, attenuation of cardiopulmonary dysfunction by modification of vascular tone using ibuprofen, 181
- Erectile dysfunction
  - presence of PGE<sub>1</sub> binding determines erectile response to PGE<sub>1</sub>, 111
  - role of prostaglandins in aetiology and treatment, 169
- Essential fatty acids *see under* Fatty acids

Ethanol consumption  
 low chronic, effects on ovulation and PGE synthesis, 95  
 organ damage, fatty acid ethyl esters and, 313  
 Evening primrose oil, in formulas for low birthweight infants,  
 effects on long chain polyunsaturated fatty acid status, 199  
 Evolution, lipid metabolism and, 431

**F**

Fatty acid ethyl esters, 313  
 Fatty acid transport protein, relationship to human very long-  
 chain acyl-CoA synthetase, 233  
 Fatty acids  
 cis-unsaturated, effect on activity of protein kinases and  
 protein phosphorylation in macrophage tumor (AK-5) cells  
 in vitro, 55  
 desaturation: effect of alphafetoprotein on alpha-linolenic  
 acid conversion by fetal rat hepatocytes, 209  
 effect on prostaglandin E<sub>2</sub> synthesis of dietary oils containing  
 different amounts of precursor and derivative fatty acids,  
 49  
 essential, role in insulin resistance and non-insulin dependent  
 diabetes mellitus, 13  
 long chain n-3, effects expression of PGH synthase isoforms  
 in bovine aortic endothelial cells, 363  
 long chain polyunsaturated, effect of supplementing formulas  
 of low birthweight infants, 199  
 metabolism  
 depression and bipolar disorder, 217  
 schizophrenia and other psychiatric disorders, 141  
 in vivo conversion of linoleic acid to arachidonic acid in  
 humans, 407  
 non-esterified, vascular effects: implications for  
 cardiovascular risk factor, 411  
 omega-3  
 bipolar disorder and, 329  
 blocking of serotonin-induced endothelial cell proliferation,  
 115  
 in food supply, evolutionary aspects, 421  
 polyunsaturated  
 biosynthesis: microsomal-peroxisomal process, 317  
 effect of high polyunsaturated free fatty acid levels at feto-  
 maternal interface on steroid hormone message during  
 pregnancy, 393  
 functional and electrophysiologic effects on excitable  
 tissues, 307  
 long chain, effect of supplementing formulas of low  
 birthweight infants, 199  
 mechanisms for regulation of hepatic gene transcription, 345  
 protein acylation in normoxic and ischemic/reperfused  
 cardiac tissue, 299  
 regulation of alphafetoprotein gene expression, 357  
 transport  
 across membranes by diffusion mechanism, 291  
 molecular aspects: mutations in the IYTSGTTGXPK motif  
 impair fatty acid transport function, 285  
 unsaturated, effects on human peripheral blood T  
 lymphocyte proliferation after activation of T cell receptor,  
 371  
 Fibrates, regulation of alphafetoprotein gene expression, 357  
 Fish oils  
 coordinate induction of peroxisomal acyl-CoA oxidase and  
 UCP-3: mechanism for decreased body fat deposition, 351  
 in formulas for low birthweight infants, effects on long chain  
 polyunsaturated fatty acid status, 199

**G**

Gallbladder, prostanoid formation, role of cyclooxygenase-1 and  
 2, 77  
 Gamma-linolenic acid (GLA) supplementation, effects on  
 tumour cells, 235

Garlic, effect of raw versus boiled aqueous extract of on platelet  
 aggregation, 43  
 GLUT-4, role in insulin resistance and non-insulin dependent  
 diabetes mellitus, 13

**H**

Heart  
 antithromboxane A<sub>2</sub> synthetase activity of myocardial  
 tissue and its variation during ischemia and reperfusion,  
 101  
 lipid metabolism, role of peroxisome proliferator-activated  
 receptor  $\alpha$ , 339  
 polyunsaturated fatty acids, functional and  
 electrophysiological effects on excitable tissues, 307  
 protein acylation in normoxic and ischemic/perfused tissue,  
 299  
*see also* Cardiovascular  
 Hepatic gene transcription, mechanisms for polyunsaturated  
 fatty acid regulation, 345  
 Hepatocytes, effect of alphafetoprotein on alpha-linolenic acid  
 conversion, 209  
 Hyperthermia, LPS-induced, role of centrally-administered  
 melatonin and inhibitors of COX and NOS, 249

**I**

Ibuprofen, attenuation of cardiopulmonary dysfunction by  
 modification of vascular tone in endotoxemia, 181  
 Indomethacin, effect on renal function and urinary prostanoid  
 excretions in salt-depleted women, 87  
 Insulin resistance  
 plasma aldosterone and, 401  
 role of GLUT-4, tumor necrosis factor, essential fatty acids and  
 daf-genes, 13  
 Interleukin-4 (IL-4), regulation of WISH prostaglandin  
 production, 255  
 Isoprostanes: 6-oxo-PGF<sub>1 $\alpha$</sub>  and 8-epi-PGF<sub>2 $\alpha$</sub>  in atherosclerotic  
 vascular tissue, 129

**L**

Leukotrienes  
 peptide, possible involvement in hyperresponsiveness of  
 Sephadex-treated rat lung parenchyma, 65  
 synthesis inhibitor BAY X 1005, combined with  
 dexamethasone, effects on edema formation in arachidonic  
 acid-induced mouse ear inflammation test, 5  
 Linoleate, neonatal metabolism, carbon recycling into de novo  
 lipogenesis, 387  
 $\alpha$ -Linolenate, neonatal metabolism, carbon recycling into de  
 novo lipogenesis, 387  
 Linolenic acid  
 effect of alphafetoprotein on alpha-linolenic acid conversion  
 by fetal rat hepatocytes, 209  
 gamma, inhibition of angiogenic factor- and tumour-induced  
 angiogenesis, 21  
 in vivo conversion to arachidonic acid in humans, 407  
*see also* Gamma-linolenic acid  
 Lipids  
 metabolism  
 evolution and, 431  
 heart, role of peroxisome proliferator-activated receptor  $\alpha$ ,  
 339  
 peroxidation  
 antioxidant effect of anthocyanin, 1  
 HepGs cells, differential effects of arachidonic and  
 docosahexaenoic acids, 367  
 Lipopolysaccharide-induced hyperthermia, role of centrally  
 administered melatonin and inhibitors of COX and NOS,  
 249  
 5-Lipoxygenase inhibitor, WY-50295 tromethamine, 31

**M**

- Meconium-stimulated cyclooxygenase-2 expression in rat lungs, 107
- Melatonin, centrally administered, role in LPS-induced hyperthermia and adipia, 249
- Mitochondrial uncoupling proteins, induction by dietary fish oil, 351
- Muscle, smooth *see* Smooth muscle
- Myocardium, antithromboxane A<sub>2</sub> synthetase activity and its variation during ischemia and reperfusion, 101

**N**

- Nitric oxide, regulation of prostaglandin production in smooth muscle myometrial cells, 73
- Nitric oxide synthase inhibitor, centrally administered, role in LPS-induced hyperthermia and adipia, 249
- Non-steroidal anti-inflammatory drugs, centrally administered, role in LPS-induced hyperthermia and adipia, 249

**O**

- Obesity, plasma aldosterone and, 401
- Onion, effect of raw versus boiled aqueous extract of on platelet aggregation, 43
- Ovulation, effects of low chronic ethanol consumption, 95
- Oxidation, peroxisomal, role in conversion of arachidonic acid to eicosatrienoic acid in skin fibroblasts, 377

**P**

- Peroxisome proliferator-activated receptor  $\alpha$  (PPAR $\alpha$ ) in control of cardiac lipid metabolism, 339
- Phospholipid metabolism
  - depression and bipolar disorder, 217
  - schizophrenia and other psychiatric disorders, 141, 431
- Platelet aggregation, effect of raw versus boiled aqueous extract of garlic and onion, 43
- Pregnancy, effect of high polyunsaturated free fatty acid levels at fetomaternal interface on steroid hormone message, 393
- Prostacyclin
  - as a critical prostanoid in adipogenesis, 383
  - mediation of endothelin-induced production in rat aortic endothelial cells by protein kinase C, 263
- Prostaglandins
  - production, regulation by nitric oxide in smooth muscle myometrial cells, 73
  - role in aetiology and treatment of erectile dysfunction, 169
- Prostaglandin E (PGE) synthesis, effects of low chronic ethanol consumption, 95
- Prostaglandin E<sub>1</sub> (PGE<sub>1</sub>), presence of PGE<sub>1</sub> binding determines erectile response to PGE<sub>1</sub>, 111
- Prostaglandin E<sub>2</sub> (PGE<sub>2</sub>)
  - interleukin-4 regulation of production in amnion-derived WISH cells stimulated with pro-inflammatory cytokines and epidermal growth factor, 255
  - synthesis, effect of dietary oils containing different amounts of precursor and derivative fatty acids, 49
- Prostaglandin H synthases
  - differential effects of long chain n-3 fatty acids on expression of PGH synthase isoforms in bovine aortic endothelial cells, 363
  - PGH-2 gene expression, cyclic AMP response element and, 243
- Prostanoids
  - formation in gallbladder, role of cyclooxygenase-1 and 2, 77
  - production
    - rat isolated atria, effect of dipyrindamole, 125
    - time-course of alterations in streptozotocin diabetic rats, 269

- urinary excretion in salt-depleted women, comparative effects of enalapril and indomethacin, 87
- Protein acylation in normoxic and ischemic/reperfused cardiac tissue, 299
- Protein kinase C
  - differential effects of arachidonic and docosahexaenoic acids, 367
  - mediation of endothelin-induced prostacyclin production in rat aortic endothelial cells, 263
- Psychiatric disorders, new gene targets: enzymes, binding proteins and transport proteins involved in phospholipid and fatty acid metabolism, 141

**R**

- Renal function, salt-depleted women, comparative effects of enalapril and indomethacin, 87

**S**

- Schizophrenia
  - new gene targets: enzymes, binding proteins and transport proteins involved in phospholipid and fatty acid metabolism, 141
  - phospholipid metabolism and, 431
- Sephadex-treated rat parenchyma, possible involvement of thromboxane A<sub>2</sub> and peptide leukotrienes in hyperresponsiveness, 65
- Serotonin-induced endothelial cell proliferation, blocking by omega-3 fatty acids, 115
- Smooth muscle cells
  - failure of TXA<sub>2</sub> to induce proliferation of cells enriched with eicosapentaenoic acid and docosahexaenoic acid, 275
  - myometrial, regulation of prostaglandin production by nitric oxide, 73
- Steroid hormone message in pregnancy, effect of high polyunsaturated free fatty acid levels at fetomaternal interface, 393

**T**

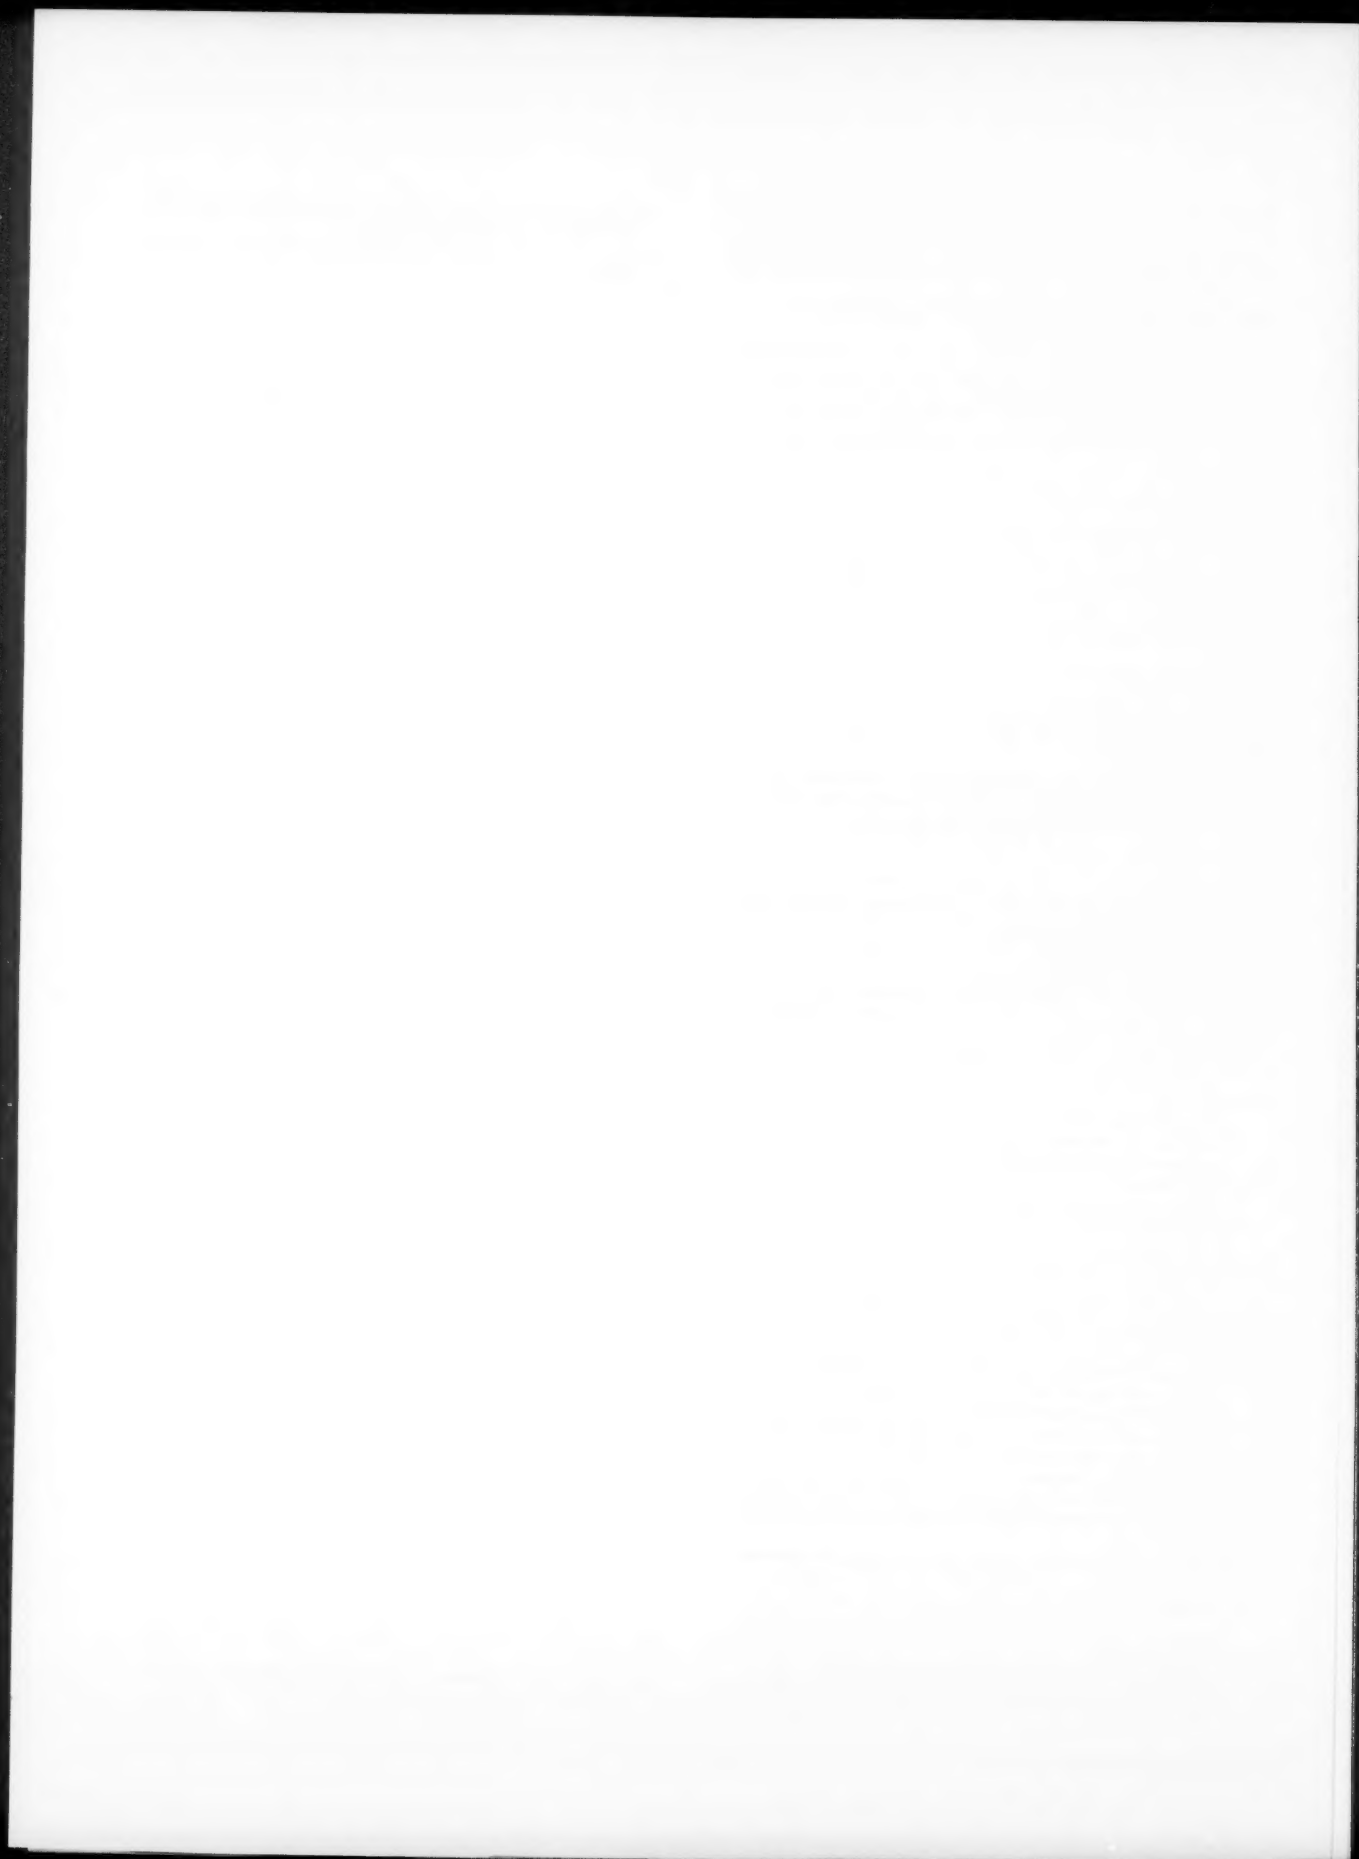

- T cells, human peripheral blood, proliferation after activation of T cell receptor: effects of unsaturated fatty acids, 371
- Thromboxane A<sub>2</sub>
  - antithromboxane A<sub>2</sub> synthetase activity of myocardial tissue and its variation during ischemia and reperfusion, 101
  - failure to induce proliferation of smooth muscle cells enriched with eicosapentaenoic acid and docosahexaenoic acid, 275
  - generation from highly purified sinus mast cells after immunological stimulation, 175
  - possible involvement in hyperresponsiveness of Sephadex-treated rat lung parenchyma, 65
- Tumor cells
  - effect of cis-unsaturated fatty acids on activity of protein kinases and protein phosphorylation in macrophage tumor (AK-5) cells in vitro, 55
  - effects of gamma-linolenic acid supplementation, 235
- Tumor necrosis factor, role in insulin resistance and non-insulin dependent diabetes mellitus, 13

**V**

- Vascular contraction, effects of daphnodorin A on angiotensin II-induced contraction, 135
- Vascular tissue, atherosclerotic, 6-oxo-PGF<sub>1 $\alpha$</sub>  and 8-epi-PGF<sub>2 $\alpha$</sub>  in, 129

**W**

- WY-50295 tromethamine: 5-lipoxygenase inhibitor without activity in human whole blood, 31
